

Associate in Applied Science

Medical Billing and Coding (A25310B)

Overview

This program prepares individuals for administrative roles in healthcare settings.

Coursework includes medical terminology, information systems, office management, coding, billing, insurance, legal and ethical issues and documentation. The Medical Billing and Coding track includes general medical office administration procedures as well as prepares students to become certified medical coders.

Graduates are prepared for roles in medical and dental offices, hospitals, insurance companies, laboratories, and other healthcare organizations.

Employment Outlook

Graduates are prepared for roles in medical and dental offices, hospitals, insurance companies, laboratories, and other healthcare organizations.
