

Associate in Applied Science

Paralegal Technology (A25380)

Overview

Approved by the American Bar Association and North Carolina Bar Certified

The Paralegal Technology curriculum is designed to prepare individuals to work under attorneys' supervision by performing routine legal tasks and assisting with substantive legal work. The program offers both an Associate Degree and a Post Baccalaureate Diploma that is designed specifically for students who have a bachelor's degree. Both the diploma and associate degree are approved by the ABA. In addition, the program offers a non-ABA approved certificate, Introduction to Legal Studies (C25380C1), through Career & College Promise Pathways Program. This program offers an overview of the legal discipline, and although it does not prepare students to work as paralegals, it does provide a pathway to additional legal studies.

The curriculum includes substantive and procedural legal courses in such areas as civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Additionally, the curriculum includes required courses in English, Computer Literacy, and Communications. The program also offers a review course that prepares students for the North Carolina State Paralegal Certification Exam. Required courses also include subjects such as English and computer utilization.

Graduates are trained to assist attorneys in various areas of the law in drafting, filing legal documents, writing, researching, and managing the law office. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.
