

Associate in Applied Science

Medical Assisting (A45400)

Overview

The Medical Assisting curriculum prepares multi-skilled health care professionals to be qualified to perform administrative, clinical, and laboratory procedures. Coursework encompasses scheduling appointments, coding and processing insurance accounts, billing, collections, medical transcription, computer operations, assisting with examinations and treatments, performing routine laboratory procedures, electrocardiography, supervised medication administration, and ethical/legal issues associated with patient care.

Employment Outlook

Graduates are prepared for employment in physician offices, clinics, hospitals, and other healthcare settings where multi-skilled clinical and administrative support is needed.
