

Associate in Applied Science

Medical Laboratory Technology (A45420)

Overview

The Medical Laboratory Technology curriculum trains individuals to execute clinical lab procedures across chemistry, hematology, microbiology, and transfusion medicine for health maintenance and disease diagnosis and treatment. Coursework emphasizes mathematical and scientific concepts related to specimen collection, laboratory testing and procedures, quality assurance in reporting/recording and interpreting findings involving tissues, blood, or body fluids.

Employment Outlook

Graduates qualify to sit for American Society of Clinical Pathology Board of Certification exams. Career opportunities span hospital labs, physician offices, blood banks, industry, and research settings.

Plan of Study

CREDITS

Term I

BIO 163 Basic Anatomy & Physiology	5
CHM 130 General, Organic, & Biochemistry	3
CHM 130A General, Organic, & Biochemistry Lab	1
MLT 110 Introduction to MLT	3
MLT 120 Hematology/Hemostasis I	4
MLT 126 Immunology and Serology	2
ACA 122 College Transfer Success	1
Term Credits	19

Term II

MLT 127 Transfusion Medicine	3
MLT 220 Hematology/Hemostasis II	3
MLT 130 Clinical Chemistry I	4
MLT 140 Introduction to Microbiology	3
MLT 111 Urinalysis & Body Fluids	2
Term Credits	15

Term III

ENG 111 Writing and Inquiry	3
PSY 150 General Psychology	3
MLT 251 MLT Practicum I	1
Mathematics elective (MAT 143 or MAT 152)	3
Term Credits	10

Term IV

MLT 230 Clinical Chemistry II	3
MLT 240 Special Clinical Microbiology	3
MLT 266 MLT Practicum II	6
Term Credits	12

Term V

Writing elective (ENG 112 or ENG 114)	3
Humanities/Fine Arts elective	3
MLT 216 Professional Issues	1
MLT 276 MLT Practicum III	6
Term Credits	13

Total Credit Hours

69
