

Associate in Applied Science

Nursing, Associate Degree (A45110)

Overview

The Associate Degree Nursing curriculum prepares individuals with the knowledge and skills necessary to provide nursing care to clients across the lifespan. The curriculum equips learners with competencies to integrate safety and quality into nursing care across dynamic settings, employing evidence-based practice, quality improvement, and informatics while developing critical thinking skills as an interdisciplinary team member.

Employment Outlook

Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-RN) and pursue employment in acute, chronic, extended, industrial, and community healthcare settings. The program holds full approval from the North Carolina Board of Nursing and accreditation from the Accreditation Commission for Education in Nursing (ACEN).

Plan of Study

CREDITS

Term I
