

Associate in Applied Science

Occupational Therapy Assistant (A45500)

Overview

The Occupational Therapy Assistant curriculum prepares individuals to operate under a licensed occupational therapist's direction in screening, assessing, planning, and implementing treatment as well as documenting progress for clients receiving occupational therapy services.

Coursework emphasizes human growth and development, conditions that interfere with activities of daily living, theory and process of occupational therapy, individual or group treatment activities, the therapeutic use of self, activity analysis as well as grading or adapting activities and environments.

Employment Outlook

Graduates may qualify for the national certification examination for certified occupational therapy assistant practice. Employment settings include hospitals, rehabilitation centers, extended care facilities, sheltered workshops, schools, outpatient clinics, home health programs, and community-based services.
