

Associate in Applied Science

Polysomnography (A45670)

Overview

The Polysomnography curriculum equips learners with competencies to critically assess, plan, implement, and evaluate clinical care and management of sleep disorders and daytime alertness. Students work as part of a clinical team under physician supervision, applying specialized knowledge in evaluating and treating sleep conditions across all age groups. The curriculum covers diagnostic testing including polysomnograms, PAP titration studies, multiple sleep latency tests, maintenance of wakefulness tests, actigraphy, and home sleep testing.

Employment Outlook

Employment opportunities exist in facility-based or private sleep diagnostic and treatment centers, durable medical equipment companies, medical specialty sales, research, and more.

Plan of Study

CREDITS

Term I

BIO 163 Basic Anatomy & Physiology	5
MED 121 Medical Terminology I	3
PSG 110 Introduction to Polysomnography	4
PSG 112 Polysomnography Fundamentals	3
PSG 214 PSG Clinical Applications I	1
ACA 122 College Transfer Success	1
Term Credits	17

Term II

ENG 111 Writing and Inquiry	3
MED 118 Medical Law and Ethics	2
PSG 111 Neuro/Cardiopulmonary Anatomy & Physiology	4
PSG 113 Polysomnography Instrumentation	3
PSG 114 Polysomnography Clinical Education I	3
Term Credits	15

Term III

MAT 143 Quantitative Literacy	3
CIS 110 Introduction to Computers	3
Writing elective (ENG 112 or ENG 114)	3
Term Credits	9

Term IV

PSG 210 Polysomnography I	7
PSG 212 Infant/Pediatric Polysomnography	4
PSG 215 PSG Clinical Applications II	1
Term Credits	12

Term V

PSG 211 Polysomnography II	7
PSG 213 Case Study/Exam Review	1
PSY 150 General Psychology	3
Humanities/Fine Arts elective	3
Term Credits	14

Total Credit Hours

67
