

Associate in Applied Science

IT Technical Support (A25590TS)

Overview

Every organization runs on technology—and IT technical support professionals are the people who keep it running. In this hands-on program you'll learn to set up, secure, troubleshoot, and support computers, networks, Windows and Linux systems, virtualization, and cloud services.

You'll also build the user-support and professional skills that make great support teams, graduating ready to be the person coworkers and customers count on when it matters most.

Employment Outlook

Skilled IT support is in constant demand. The U.S. Bureau of Labor Statistics projects steady growth for computer support specialists, and nearly every employer—from banks and hospitals to schools and small businesses—needs people who can keep systems running and users productive. It's also a proven launchpad into networking, cybersecurity, and systems administration.

Your degree can open doors to roles like Help Desk Technician, Desktop Support Specialist, IT Support Technician, Systems Support Analyst, and Technical Support Engineer.

(Please note: CPCC does not guarantee employment)

Plan of Study

CREDITS
