

Associate in Applied Science

Software Engineering (A25590SE)

Full-Stack Programming Career Track

Overview

Software powers everything around us—and software engineers are the people who build it. In this program you'll learn to design, develop, test, and deploy real applications while mastering programming logic, databases, web development, and project management.

The Full-Stack Programming track teaches you to build complete web applications from front to back—Python, JavaScript, modern markup, and database-driven websites—so you can take an idea from interface to server with confidence.

Employment Outlook

Demand for software talent keeps climbing. The U.S. Bureau of Labor Statistics projects software developer and web developer employment to grow much faster than average through the decade, with strong salaries across nearly every industry. Full-stack developers who can work across the entire web stack are in especially high demand.

Your degree can open doors to roles like Full-Stack Developer, Web Developer, Front-End Developer, Back-End Developer, and Web Application Programmer.

(Please note: CPCC does not guarantee employment)

Plan of Study

CREDITS

Term I

ACA 122 Transfer & Career Success	1
CTI 110 Information Technology Foundations	3
CTI 120 Network and Security Foundations	3
CIS 115 Introduction to Programming and Logic	3
ENG 111 Writing and Inquiry	3
Term Credits	13

Term II

CTS 115 Information Systems Business Concepts	3
CTS 120 Hardware/Software Support	3
NOS 110 Operating Systems Concepts	3
MAT 152 Statistical Methods I	4
CSC 121 Python Programming	3
Term Credits	16

Term III

ENG 112 Writing and Research in the Disciplines	3
CIS 110 Introduction to Computers	3
Humanities/Fine Arts Elective	3
<i>You may have completed a program certificate(s). Confirm eligibility with your academic advisor.</i>	
Term Credits	9

Term IV

DBA 120 Database Programming I	3
CSC 221 Advanced Python Programming	3
WEB 110 Web Development Fundamentals	3
CTS 240 Project Management	3
CSC 154 Software Development	3
CTS 118 IS Professional Communications	2
Term Credits	17

Term V

Social/Behavioral Sciences Elective	3
Technical Elective	1
WEB 115 Web Markup and Scripting	3
WEB 140 Web Development Tools	3
WEB 215 Advanced Markup and Scripting	3
WEB 250 Database Driven Websites	3
<i>You may have completed a program certificate(s). Confirm eligibility with your academic advisor.</i>	
Term Credits	16

Total Credit Hours
